

THE RASCAL

The Rascal is a 16' upscaled version of a classic two seater "roadster." The superstrong lightweight wooden hull, built on Douglas Fir frames, is sheathed externally in epoxy and fibreglass and a paint system then used to add extra durability and scratch-resistance. The deck, made from Sitka Spruce veneers, is both oiled and varnished, enhancing strength and beauty. Powered by a 60HP 2-stroke Evinrude outboard, the boat is coloured in classic 1930's style, matching the hull's paintwork to the red and cream of the engine.

The Rascal is one of our speciality builds and can be customised to suit your needs, including the addition of two further seats forward of the main cockpit.
